FASHION

Unlike the sofa made of general curves, this sofa breaks through the tradition and consists of several hexagons with distinct edges and corners. Its lines are hard but not sharp. Its tone is bright and light. It is like a juvenile in high spirits, making the whole space lively

The back of the sofa has three choices, no back, low back, and high back. The low back is made up of a hexagon, while the high back is made up of two hexagons stacked together. The back of the sofa can be collocated with high and low, which greatly enriches the sofa's sense of hierarchy.
