Next Generation Cared For • Work Efficiency Planned For • Privacy Catered For

Greenguard Certification

In 2022, WINPOD is the first acoustic pod brand to receive UL GREENGUARD Certification in ASEAN. Then it was upgraded to Gold Certification in 2023. We are now the first and only brand in Asia that is Greenguard certified.

Products with GREENGUARD Certification undergo rigorous testing to demonstrate their low emissions of VOCs, formaldehyde, and other harmful chemicals.

Caring for your employees' health is made easy with WINPOD, as our acoustic pods are certified to have low harmful emissions.

*“Winpod is **GREENGUARD** certified, giving our clients a peace of mind when using our products, knowing they are safer and have low harmful emissions.”*

- Dixon Loong, Director of Sales and Marketing, Wintech Metal Processing Sdn Bhd

Turn on Hybrid mode seamlessly

With the wide adoption of the new hybrid work mode today, having a functional and quiet space in an open-plan office is critical. The benefits of having a well-designed and mobile workspace will enhance your employees' deliverables.

① **Save cost without affecting your privacy**

Keep renovation costs to the minimal by having an open-plan office. All our acoustic pods come with the perfect sound insulation to ensure your privacy is taken care of, whether you are taking a private call or having a confidential discussion.

② **Easy to assemble and mobile**

All WINPOD acoustic pods are easy to assemble. Selected acoustic pods come with caster wheels, so you can easily move the acoustic pods to anywhere in the office without going through any renovation. There are many colours to choose from to complement any design and theme.

③ **Efficient and effective work planning and meetings**

Avoid distractions in an open-plan office with WINPOD acoustic pods. Step into a quiet and a distraction-free zone when you require laser sharp focus to concentrate on the task at hand.

④ **Caring for your employees**

Post pandemic, employee's health and well-being will no longer be an after-thought. It is to be included and planned for right from the beginning. WINPOD acoustic pods are designed ergonomically, disabled-friendly, user friendly, and environmentally friendly, providing a safe and stress-free space for all your employees.

Overview

1

Air Purifying System

The acoustic pod is well ventilated with HEPA air filter to provide a comfortable and clean workspace to the user without feeling claustrophobic.

2

Perforated Hole for Sprinkler

Sprinkler head can be installed based on safety requirement.

3

Sustainable & Recyclable

WINPOD practices sustainability in its daily manufacturing operation. Up to 98% of the materials used for the acoustic pods are recyclable.

4

Ergonomic and Exclusive Charging Ports

CE certified charging ports with AC outlet and Type A/ Type C 65W PD. Input 110-240 VAC, IOA, 50-60Hz.

5

Acoustic Material for Sound Insulation

A+ DS,A ~ CLASS B, the perfect sound insulation offers private and quiet environment, free from disturbances.

6 **Motion Sensor for Energy Saving**

The LED lighting and air ventilation system are activated by sensing motions. Both will turn off automatically after 5 minutes of inactivity.

7 **Elegant Door Handle**

Aesthetically designed makes WINPOD acoustic pod an elegant component in a trendy office.

8 **Casters for The Ease of Mobility**

A feature for S/W/D POD.

9 **Auto Close Tempered Glass Door**

The door opens up to 95° to prevent collision against surroundings.

10 **Quick And Easy To Assemble**

Complete setup in just 30 minutes, with a simple, 3-step assembly instruction, making installation a breeze.

11 **WINPOD Touch Panel**

With the latest WINPOD Touch Panel, control and personalise your acoustic pod easily with just a few taps.

Distraction-Free Zone

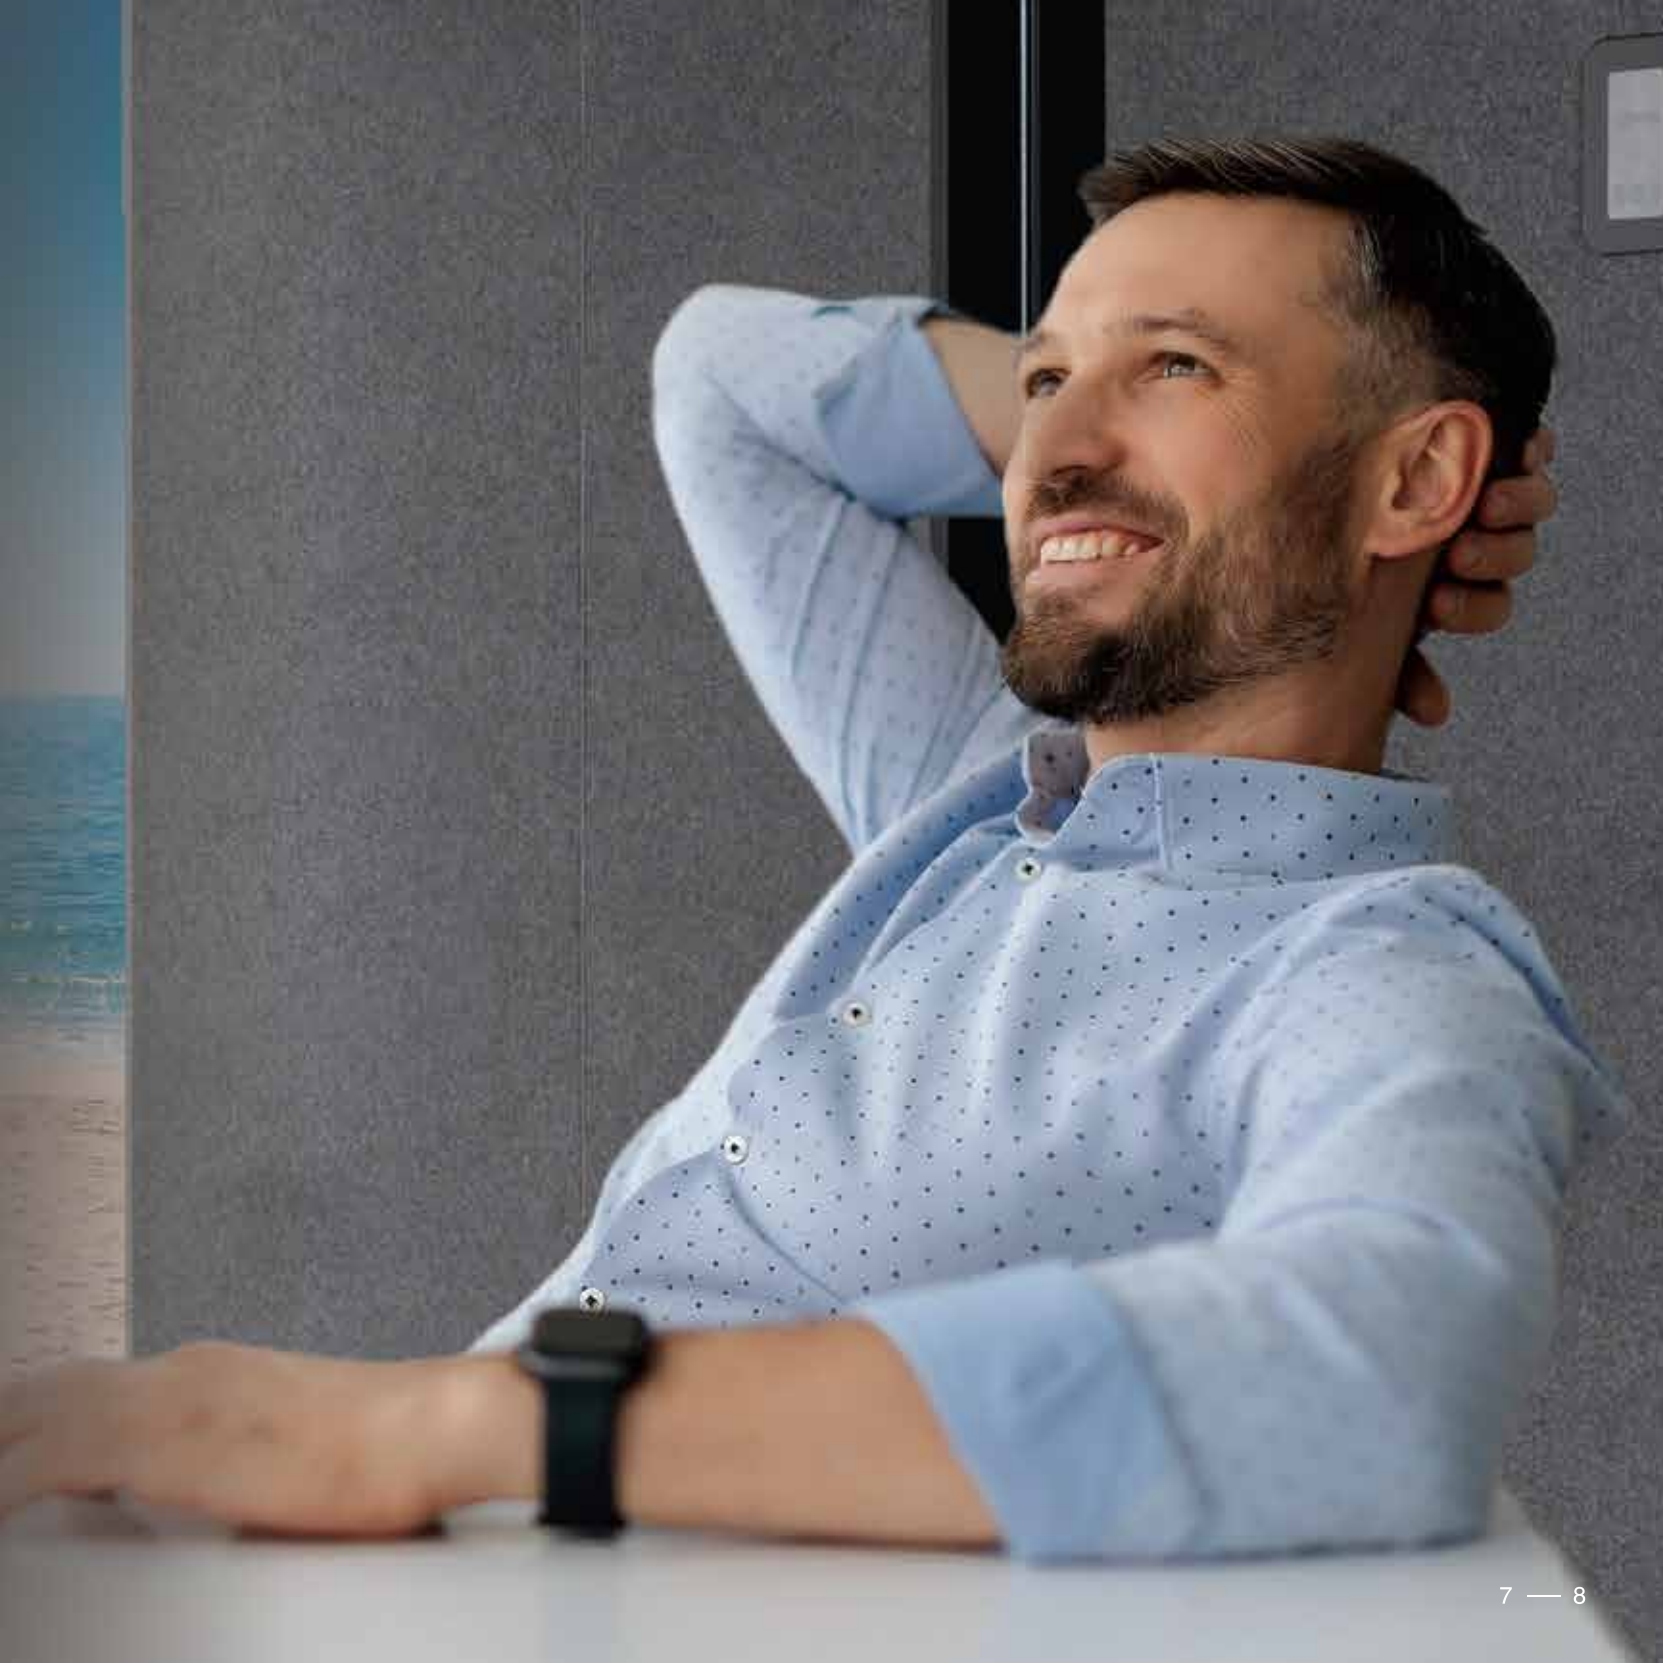

Whether you need a quiet space for data crunching, for a private and confidential call, or simply just to take five, calm down and regroup, WINPOD acoustic pods offer you a high quality and well-insulated distraction-free zone. Our acoustic pods come with tempered glass door so you will not feel claustrophobic. Step into tranquillity amid a chaotic office without feeling isolated.

Based on ISO 23351-1 standard

Your Space. Your Call.

At WINPOD, we believe that form and function should work in tandem. Aesthetical design with task-based functionality and ergonomical desks will enhance the employee's experience while they are working in the pods. With a wide range of colours and materials to choose from, we are confident that our acoustic pods will be a chic and beautiful addition to your office.

Occupancy Indicator

Knowing which acoustic pod is available from afar instantly, with just a glance at the occupancy indicator at the top of the pods. This is especially useful if you are looking for a pod at the last minute, or just need it for a quick call or discussion. You can hop right in to one that is available.

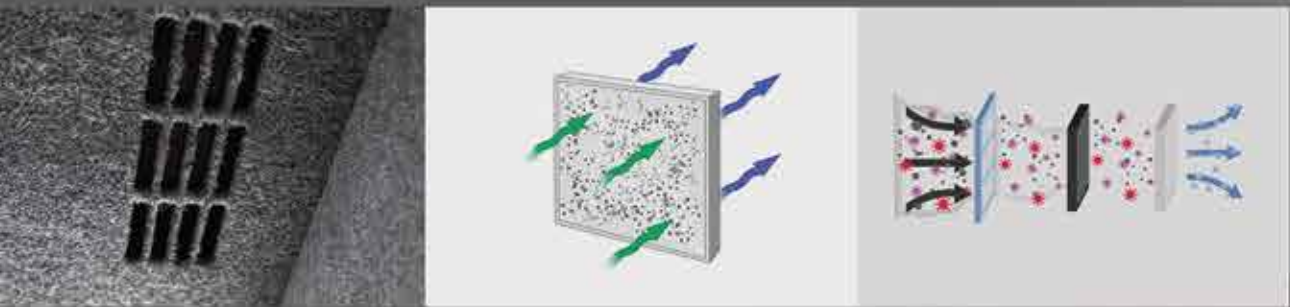

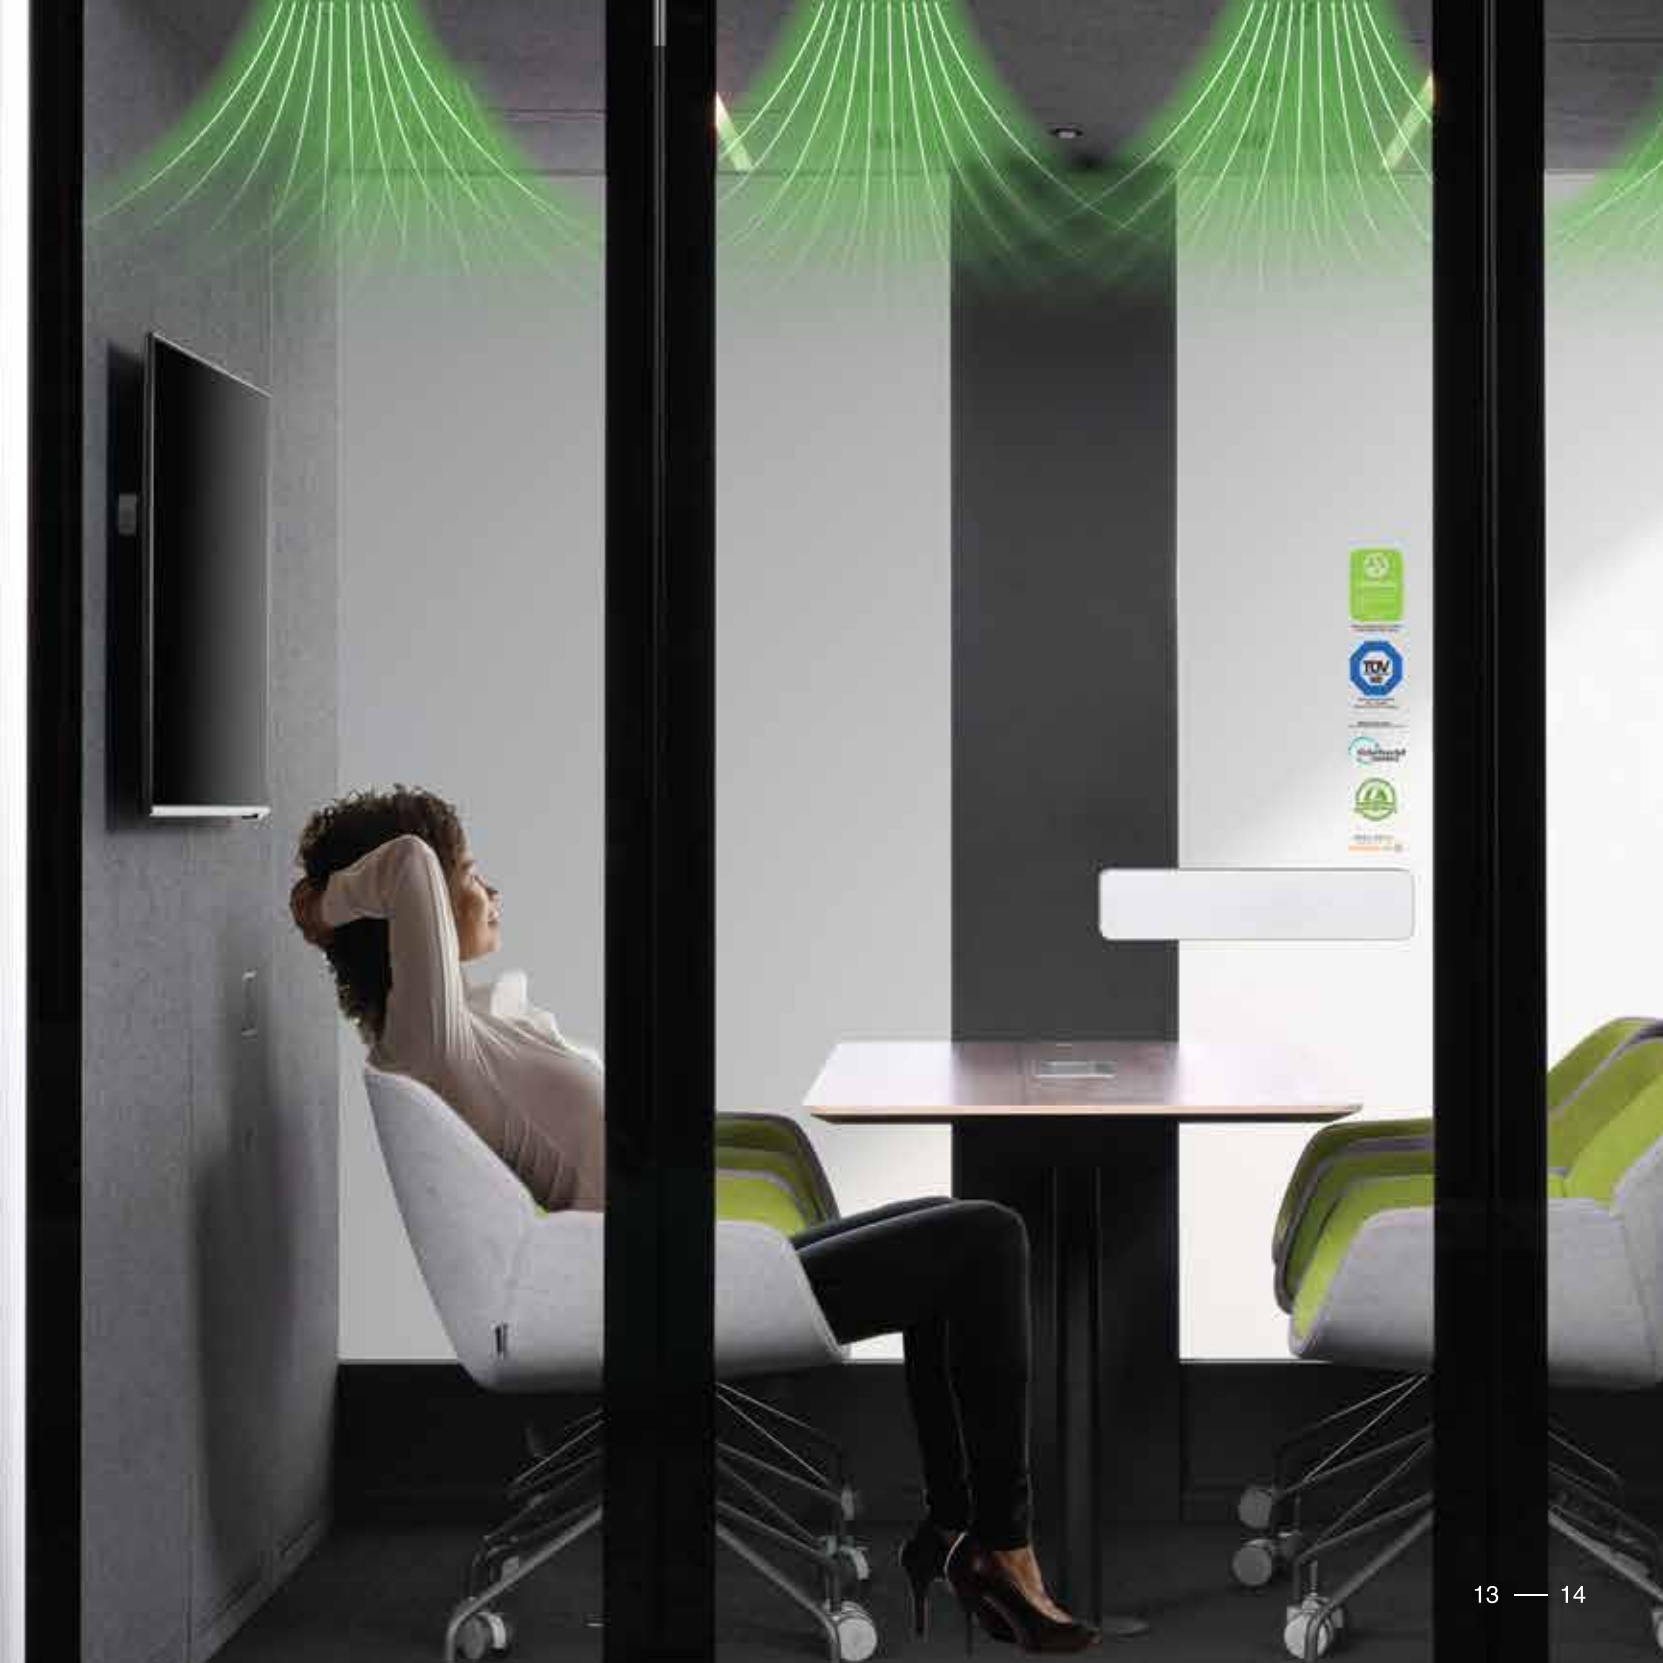

HEPA filter – cleaner and healthier air

WINPOD acoustic pods are installed with a HEPA filter. It captures airborne particles and releases the cleaned air into the pod. Cleaner air reduces allergic responses. Your employees can work confidently knowing that the air quality inside the pods is cleaner and healthier.

Model	Airflow (m3/h)	AirChange Per Hour (ACH)
S POD 3.0 Plus	152	89
W POD 3.0 Plus	152	52

C POD 3.0 Plus	912	87
M POD 3.0 Plus	912	69

Reduce techno stress

Techno stress is a feeling of anxiety, tension, or distress that can occur when someone is overwhelmed by technology. It is common in today's world, given that we are all connected to our devices 24/7. However, technology and connection are essential in getting the work done.

We have made the technology invisible to lower its potential distraction. All controls (brightness, fan speed, auto air circulation, etc.) are easily accessible and manageable through the WINPOD touch panel. All pods also come with Type-C charger and universal socket for your devices to stay charged.

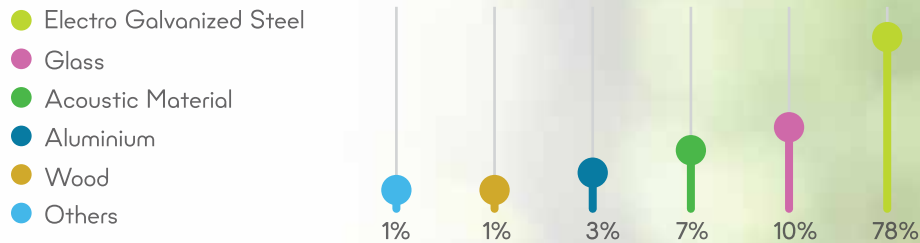

Recyclable and sustainable

Sustainability is no longer an option. It is now ingrained in the way we do business. WINPOD is proud to claim that 98% of all the materials used in our products are recyclable. Especially the acoustic materials – they are 100% polyester and have been tested by the relevant authorities, proven to be harmless to the environment.

One of our notable commitments to a greener environment is using galvanised steel to create 78% of an S Pod 3.0 Plus.

Smart Office Solutions

Enabling Intelligence, Enhancing Productivity

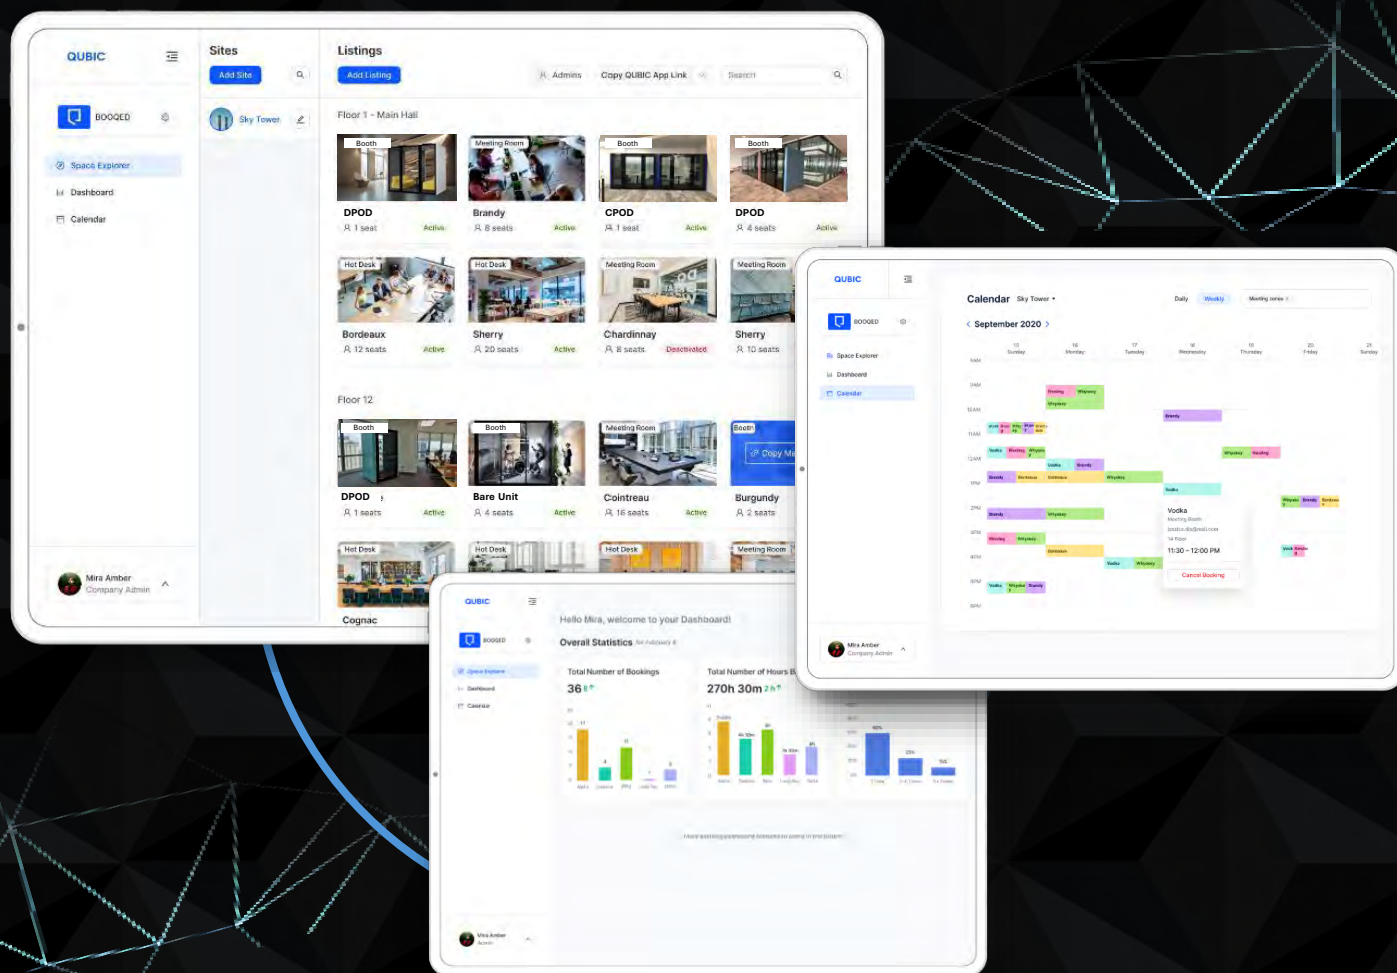

Choosing a **Smart Office Solution** means investing in a workspace that delivers actionable data to better understand user behavior, enabling you to adapt workflows, enhance collaboration, and boost overall productivity.

Enabling Intelligence

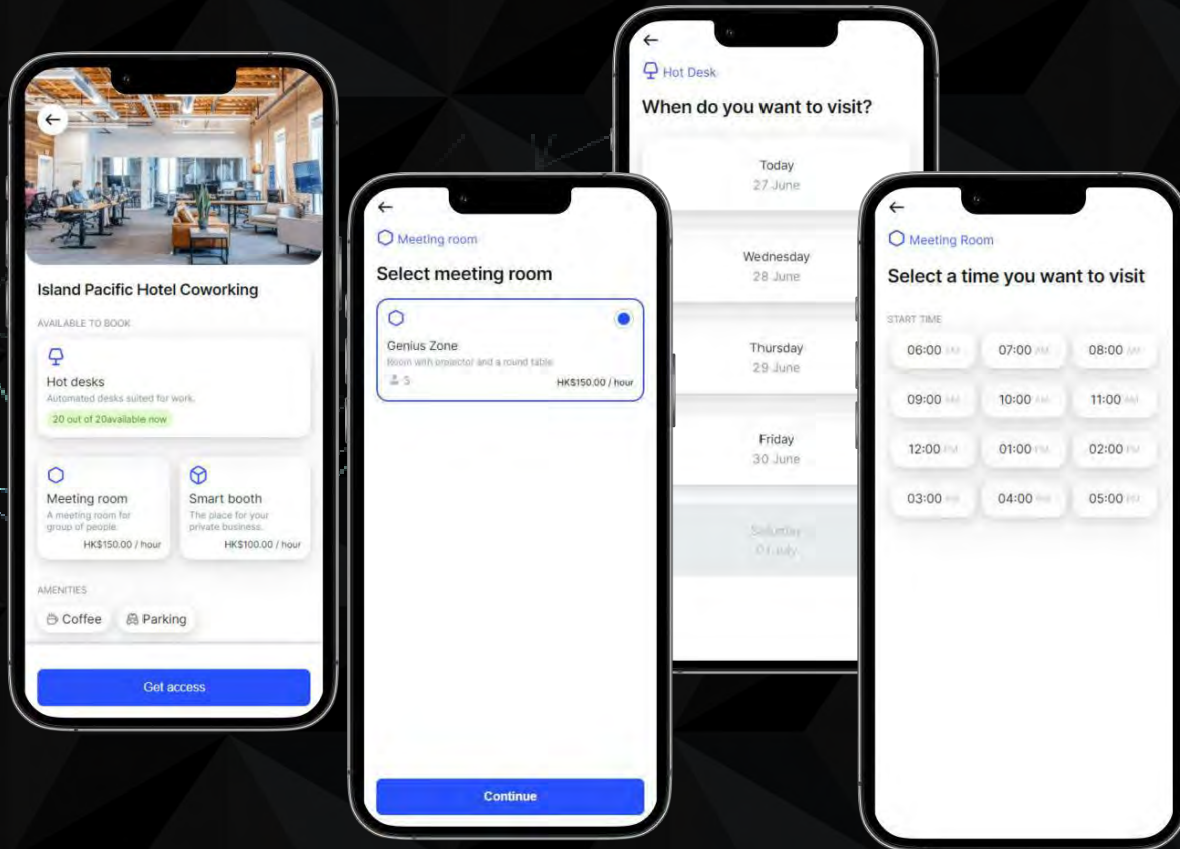

A unified platform that streamlines workspace interaction—letting users book smart booths, lockers, hot desks, and coffee from one seamless interface. Each booking generates data that powers real-time occupancy insights, user behavior analytics, and recommendations to optimize space and boost efficiency.

Enhancing Productivity

By capturing real-time usage data, the platform reveals space patterns and user behavior—enabling smarter resource allocation, smoother workflows, and faster decisions. This leads to a more efficient, productive workplace.

Software Component

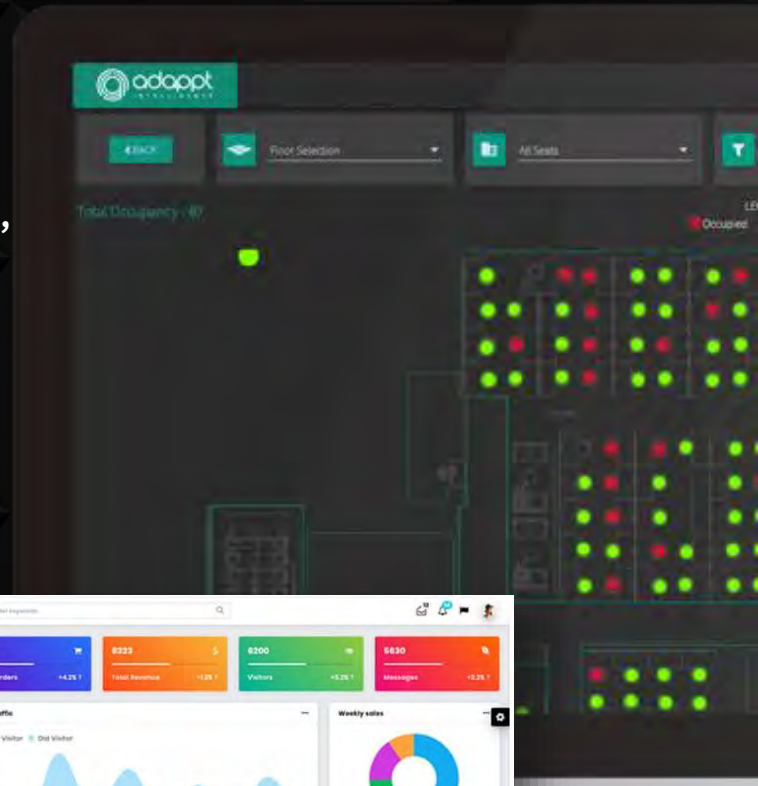

Web App for Booking

- ✓ Simple, real-time booking confirmation and check in (for smart booth, hot desk, and meeting rooms)
- ✓ User self-cancellations
- ✓ GDPR Certified

Software Component

Admin Portal Listings

- One platform for multiple locations and buildings
- Categorized listing based on booths, hot desks and meeting rooms

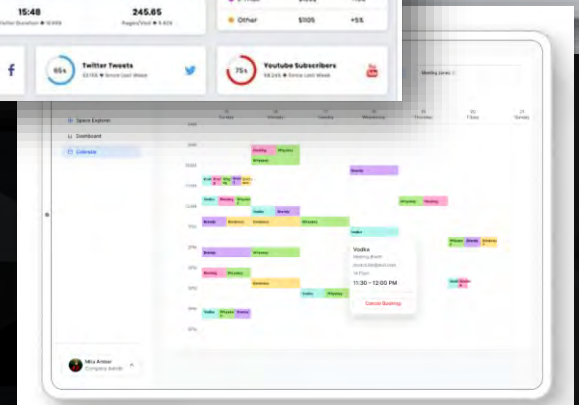

Admin Portal Dashboard Analytics

- Real-time booking statistics for all listings
- Monitor usage for space management
- Snapshot of daily, weekly and monthly usage

Admin Portal Booking Calendar

- Real-time calendar that shows an up-to-date view of current bookings
- Display calendar based on listing types (booths, hot desks and meeting rooms)
