NEW PRODUCT

The leisure chair adds the form of headrest,
which makes the choice of users become rich and varied,
and also makes the shape rich and changeable.
The head pillow is more like a whale in the deep ocean
tilting its tail to form a beautiful arc.

Walnut-colored solid wood bottom frame is a major design point with and without handrails. A soft bag base is proposed, and a textured walnut-colored solid wood bottom frame is replaced, so that the appearance is more uneven and dry, and the texture and tactility of solid wood feet are stronger. The chorus of different chair legs sounds different movements.

Modeling inspiration comes from deep-sea fish, deep-sea Secrets - whales, rounded bodies, smooth lines, create different shapes.

This series is divided into bar chair, dining chair, leisure chair, headrest leisure chair, sofa, to fill the rich sense of the series, to meet the needs of different environmental scenes.

Under the background of solid wood foot with walnut color solid wood bottom frame, the texture and level of the whole dining chair are more obvious, and the folding treatment of the fabric improves the design texture of the dining chair.

A typical example of multi-purpose chair, the combination of wooden frame and wooden foot, makes the whole chair look light and single in structure to ensure its stability.

Extension whale shape, weave a variety of peripheral shapes, combination sofa forms are diverse, 90 degree corner to solve the corner of the corner sofa turning problem, sofa unique shape, increase living backrest cushion, make the sofa more full. The inner liner of the flexible cushion is filled with duck down to improve the satisfaction of user experience and increase the comfort of the software.

The slightly open form of the armrests on both sides seems to say, "Come and embrace me". The soft bag filled with duck velvet strengthens the strength of embracing, makes people have a "paralysis" state, more or less for the office and leisure area up to a certain degree of rest, sofa style is novel and does not fall into the convention.

sofa is divided into left handrail, right handrail and 90 degree turning angle to meet the choice of different environmental conditions.
 The choice of different fabrics, the collocation of different combinations, the graceful presentation of lines.
